A GENERAL CHART

OF THE VOYAGES OF JAMES COOK in this and his two preceding VOYAGES with the TRACKS of the S

By Lieut. Henry Roberts of the Royal Navy

This is a historical map of the North Atlantic Ocean, likely from a 19th-century publication. The map shows the eastern coast of North America, including Baffin's Bay, Hudson's Bay, and the Gulf of Mexico. It also depicts the Caribbean Sea and the northern coast of South America, including the Guianas and Venezuela. The map is characterized by a grid of latitude and longitude lines, with latitude marked on the right side (from 10°N to 70°N) and longitude marked along the top and bottom edges. Numerous place names are labeled, including Baffin's Bay, Hudson's Bay, Labrador, New Britain, the Gulf of Mexico, the Caribbean Sea, and the northern coast of South America. The map is oriented with North at the top.
